

Created for the Away From Home market, Eveza® products are designed for the appeal of a wide audience. From the upper market CBD establishment aiming at leaving a lasting impression on its patrons with the highest possible quality products money can buy, to the modest motel that wants to impress its guests without breaking the bank.

Eveza®'s products and raw materials are sourced from internationally certified suppliers, thus guaranteeing a finished product of the highest level of excellence in the industry.

Eveza® is currently distributed in the Australasian region through distribution partners that share our same values.

ABOUT US

Eveza Pty Ltd. is an Australian company operating in the hygiene products industry specialising in washroom paper and other related products.

Formed by a group of Sydney investors, Eveza's vision is to provide an innovative Australian brand of the highest quality to customers in the commercial arena in Australia, New Zealand and beyond.

At product development stage Eveza® places the customer's needs first.

Thanks to a policy where only products and technologies that have been tested for at least one year making it into the range, our products are guaranteed to deliver on the big stage.

RANGES

Created to impress, the Deluxe range features the Airweb™ air dried exclusive towel range, 3 ply quilted toilet rolls and extra soft hypoallergenic facial tissues in a classic design.

Heavy Duty and Industrial Grade, Eveza's Wipes are made to last. With a fabric composition chosen for extra absorbancy and extra fabric weight allocated, our wipes are guaranteed to deliver.

Mainstream range for consumption with various areas. This range features all your paper needs in a premium quality offering.

Foam, Soap & Sanitiser, we offer various options including antibacterial, a fresh fragrance and a delicate fragrance in both foam and liquid soap formats.

Our fine economy range ensures that cost control doesn't need to come at a compromise on quality. High quality virgin wood pulp is still used in the production of this category.

*Produced with care,
delivered with passion.*

TOWARDS FOREST SUSTAINABILITY.

We promote vitality, a rich biodiversity and beauty.

Sustainable forest management seeks to provide the social and economic benefits to the community from the use of forests, including recreation, while considering the impact on the **biological diversity** and health of these forests. The **social, cultural and economic** benefits of our forests valued by the community must be produced in a manner that takes the principles of **ecologically sustainable forest management** into account.

Sustainability and the environment are at the heart of what we do at Eveza®, for this reason we are committed to:

- Deriving raw materials from responsible sources and converting them to finished products through ISO 9001 and ISO 14001 compliant manufacturers ensuring environmental friendly production practices.
- Ensure that no chemicals harmful to the environment are used in the production of our products by closely monitoring each production phase.
- Ensuring forest sustainable chain of custody practices are in place, whilst we continue progressing on our path to having 75% of our products certified by the end of 2018.
- Making use of only 100% recyclable packaging material in our products. Through this practice we ensure that our environmental friendly values are spread down the distribution chain.
